**[2025-12-02 11:46:44] User:**
show top 2 java profiles

**[2025-12-02 11:46:49] AI:**
 **Search Summary**
Found 2 relevant results matching your query: "Java profiles" (top two resumes).

 **Key Findings**
- Top result (Result #1) appears to be a Java Architect/Lead profile with 5+ years of Java experience, strong in Java, Spring Boot, microservices, AWS, Kafka, and enterprise BFSI/Insurance domains. Includes multiple senior roles and notable microservice/API projects.
- Second result (Result #2) is a Java Full Stack profile with 4+ years of experience, detailing backend (Java, Spring Boot, Hibernate) and frontend (React Js), along with multiple bank/finance projects and Cisco Bank/Trading-related work.

Relevance:  (90%)
